MPN: TRAILER2

Mobile Surveillance Trailer – Flexible Deployment for 2 Telescopic Mast Systems

The Ernitec Mobile Trailer is designed for rapid, secure deployment of up to 2 telescopic mast surveillance solutions. Built for durability and mobility, it enables easy relocation of monitoring equipment across sites without compromising stability or performance.

Key Features:

Heavy-Duty Construction: Engineered for rugged environments and long-term outdoor use.

Optimized for Telescopic Masts: The trailer provides a stable base for 2 mobile surveillance towers, ensuring reliable camera positioning and coverage.

Quick Setup & Transport: Streamlined design for fast setup and effortless movement between locations, without a need for truck or crane for loading and unloading.

The load can be maneuvered on rough terrain with good handling due to a low centre of gravity of the load.

Ideal for Temporary or Remote Sites: Perfect for construction zones, infrastructure projects, events, and critical assets requiring flexible security.

With the Ernitec Mobile Trailer, you gain a versatile platform that transforms your surveillance system into a fully mobile solution, delivering protection wherever it's needed most.

- Special delivery requirements: Regular delivery is only possible where either a forklift or i high loading dock is available. Otherwise ask for price on a special delivery.

Specifications

Features	**NDAA Compliance**	Yes
