MPN: TRAILER1

Mobile Surveillance Trailer – Flexible Deployment for Telescopic Mast System

The Ernitec Mobile Trailer is designed for rapid, secure deployment of telescopic mast surveillance solutions. Built for durability and mobility, it enables easy relocation of monitoring equipment across sites without compromising stability or performance.

Key Features:

Heavy-Duty Construction: Engineered for rugged environments and long-term outdoor use.

Optimized for Telescopic Masts: The trailer provides a stable base for mobile surveillance towers, ensuring reliable camera positioning and coverage.

Quick Setup & Transport: Streamlined design for fast setup and effortless movement between locations, without a need for truck or crane for loading and unloading.

The load can be maneuvered on rough terrain with good handling due to a low centre of gravity of the load.

Ideal for Temporary or Remote Sites: Perfect for construction zones, infrastructure projects, events, and critical assets requiring flexible security.

With the Ernitec Mobile Trailer, you gain a versatile platform that transforms your surveillance system into a fully mobile solution, delivering protection wherever it's needed most.

Technical information
Total weight: 1300 kg
Trailer weight: 375 kg
Maximum load capacity: 925 kg
Length: 290 cm
Width: 195 cm
Inner box dimensions: 125 x 125 cm
Wheel size: 155 / 70R12
Lifting method: Hand winch

- Special delivery requirements: Regular delivery is only possible where either a forklift or i high loading dock is available. Otherwise ask for price on a special delivery.
